AIJAZ WANI

Software Engineer 2

PERSONAL PROFILE

Highly skilled Software Engineer 2 with expertise in Full-Stack Development, specializing in TypeScript, JavaScript, Angular, Vue.js, Next.js, C# and Node.js. Passionate about developing scalable, high-performance web applications with modern frameworks. Strong problem-solving skills and experience in designing intuitive UI/UX solutions. Adept at working in agile teams, mentoring developers, and contributing to software architecture.

WORK EXPERIENCE

SOFTWARE ENGINEER 2 | JUNLY 2021 - PRESENT

BQE Software Private limited

- Development, maintenance and enhancement of BQE products such as BQE CORE, Core public API etc
- End-to-end ownership of website-related tasks from requirement analysis to deployment.
- Code reviews & mentorship: Ensures high code quality, conducts peer reviews, and provides technical onboarding for new team members.
- Full-stack development: Develops both frontend (Vue.js, TypeScript) and backend (C#) features.
- Hotfixes & urgent issues: Rapidly resolves production issues to ensure system stability.
- Complex & R&D tasks: Leads research-driven tasks to improve application performance and scalability.
- Sprint planning & estimation: Actively participates in backlog grooming, estimating development efforts.
- Collaboration across teams: Works closely with QA, Product, and Integration teams to align technical solutions with business goals.

FRONTEND DEVELOPER | FEB-2021 - JUNE 2021

Microminds IT Solutions

- Developed modern, responsive UI (Angular) components following best practices.
- Enhanced cross-browser compatibility and optimized website performance.
- Collaborated with designers and backend developers to deliver seamless user experiences.

PROJECTS & ACHIEVEMENTS

- J&K School Education Department Mobile App: Developed a cross-platform mobile application for iOS and Android using the Ionic Capacitor framework. Integrated face recognition and geo-fencing-based photo capture attendance system.
- Central University Website: Designed and developed a university website using Angular, ensuring a user-friendly interface and robust functionality.
- J&K Job Portal: Built a job portal for Jammu and Kashmir using Node.js, Express, MongoDB, Next.js, and Firebase. The platform allows job seekers to find and apply for jobs efficiently.
- Discover MSPs: Built a Next.js-based platform aggregating a large MSP database with an SEO-friendly approach.
- Tour & Travel Website: Developed a Vue.js-based travel booking platform, integrating Google Analytics and user engagement tracking.
- SEO & Performance Optimization: Implemented SEO best practices, Google Tag Manager, and analytics solutions to boost visibility.
